

# Community Based Accountability in College Station ISD

## District Rating System

### 2016-17

**Core Beliefs**

- Each student can be a critical thinker, problem solver and possess the knowledge and skills to be a productive and responsible citizen in a global marketplace.
- The education of each student is the responsibility of the school district, the student, the family and community.
- Student success is dependent on the quality of the CSISD staff.

**Commitments**

**1. CSISD will ...recruit, develop, and retain qualified and dedicated staff**

Background: CSISD is committed to attracting the highest quality faculty and staff members, We are proud to be in a community like College Station that attracts many good teachers and staff members from other areas of Texas and the nation. CSISD annually hires a higher percentage of teachers with successful experience. Teaching positions in CSISD attract a large number of applicants, and we have a lower teacher turnover rate than the state. The most recent CSISD Texas Academic Performance Report from 2015-2016 indicates that the state turnover rate for teachers was 16.5 percent and the CSISD rate was 11.6 percent.

Once teachers and staff members arrive in CSISD we have a system of professional development that builds upon their knowledge base and helps provide the skills for success in the classroom. New Teacher University (NTU) is a system of professional development in instructional strategies, relationship building and what it takes to be successful in College Station. Teachers new to CSISD received three days of intensive training in August, with two to four follow up days of training and support throughout their first year. CSISD also provides staff development ongoing staff development in a variety of areas for over 800 teachers annually. During the 2016-17 school year, 45 teachers across CSISD participated in the Teacher Leadership Academy. Teacher Leadership Academy is a program designed to foster leadership while still in the classroom. Meetings happen monthly throughout the school year and include leadership lessons and the teachers taking on a “Risk Taking Opportunity” that benefits the school and/or district.

**2. CSISD will...provide a challenging, relevant, engaging and aligned curriculum.**

Background: The core business of any school district is teaching and learning. In order for students to learn at their highest levels and for teachers to be most effective, a guaranteed and viable curriculum must be in place. CSISD has worked to develop scope and sequences in several areas along with other supporting documents and materials. Parents may access in-depth information about scope & sequence across most content areas and grade levels online through our [Curriculum & Instruction website](#).

Background: Part of providing a relevant and engaging curriculum is providing students choice in their learning. At the high school level the district is actively increasing the types of instructional arrangements for various classes. In order to meet the diverse needs of our students and provide choice, more classes are offered in a non-traditional style: Problem-based learning (PBL), Flipped Instruction, online Instruction, or a blended model.

**3. CSISD will ...provide an array of services, programs and opportunities to meet the needs of each student, and provide the opportunity for each student to reach his or her full potential.**

Background: CSISD provides a number of services programs and other opportunities to meet the unique needs of students. House Bill 5 (83rd Texas Legislature) mandated school districts assess themselves in some of these areas below. For each area, you will find a brief description of the program and what CSISD provides that exceeds state law or other districts.

Fine Arts (HB5): With the exception of the fine arts elective that is mandated under the graduation plans for our current high school students, fine arts are not required by the education code. Nevertheless, CSISD campuses provide many fine arts opportunities for students at all levels. Elementary students rotate through art and music every week with teachers who are specialists in art and music, not simply classroom teachers. Intermediate students' elective rotations include art, music and drama. Fifth graders have the option to take orchestra, while sixth graders may choose orchestra, choir or band for the entire school year. Middle school students can choose electives in art, choir, band or orchestra. High school students have all of the other options plus theatre arts, and dance classes.

Wellness and PE (HB5): CSISD takes the wellness of each of our students seriously. Our School Health Advisory Committee (SHAC) provides guidance for child nutrition, health and physical education. Our elementary students go to PE daily, and have the opportunity for recess. Intermediate students have a daily class period of PE as well, while students at the middle school have PE class, athletics, and multiple extra-curricular options. In addition to a full array of extra-curricular activities, high school students have PE class choices that rival many small colleges, including individual and team sports, body sculpting, weight training, step/pilates/pump, outdoor education, dance, and kick ball.

Second Language Acquisition (HB5): CSISD Students at all levels have the opportunity to participate in English as a Second Language (ESL), if they qualify. In grades K-6, the district's Spanish/English bilingual education program is two-way dual language immersion model including Spanish and English Speakers. Support for both groups, including higher-level Spanish courses and at least one core subject taught in Spanish, continues into middle school. CSISD high school students have the opportunity to pursue courses of study in French, German, Latin and Spanish. All four languages have courses through AP level IV. Spanish goes all the way to AP Spanish V. Additionally, Mandarin is available in an online format.

Gifted and Talented (HB5): Students are nominated annually by parents and school staff for testing for G/T. Students who qualify for the program are eligible for pull-out services from the enrichment specialist on their campus (K-6th Grade). All students (even those not identified as G/T) have the opportunity for enrichment projects and participation in groups with their campus enrichment specialist. G/T identification in CSISD is based on academic indicators only. CSISD teachers earn endorsements in G/T allowing them to differentiate instruction for these students in their classes. Over 1,500 (11.9%) of students across all grade levels are identified

as G/T, as compared to the state rate of 7.7% identified. At the K-6 level, G/T students are served directly by a G/T specialist, and in grades 7-12 students have opportunities to enroll in advanced courses such as Honors, Pre-AP, and AP.

21st Century Workforce Development (HB5): CSISD believes that it is vitally important to prepare students for the workforce, whether our graduates plan to go straight to work or to college. These workforce skills give our graduates the ability to earn money even while pursuing other education opportunities. Our career and technology education department offers numerous career training options in all five endorsement areas of House Bill 5. Many of these career pathways culminate in the opportunity for a certification that can lead directly to gainful employment after high school.

Dropout Prevention (HB5): CSISD is committed to graduating all students no matter if they have been in our district since kindergarten, moved in during middle school, or re-enrolled after dropping out earlier in their school career. We have number of processes in place to help students stay in school. Campuses provide remediation in courses, accelerated instruction where students have struggled and credit recovery for students who have failed one or more classes at the semester.

Students behind on credits can participate in summer school, credit by exam and night school. Each comprehensive high school provides supports for students at-risk of dropping out and works collaboratively with those students to develop an individualized graduation plan.

Digital Learning Environment (HB5): CSISD believes that our students must not only have access to technology, but must become fluent in a number of technologies to be successful in college or a career. To help accomplish this, each CSISD classroom has access to student computers, and all instructional spaces have a SMARTBoard or Symposium. We have a wireless overlay of our facilities that makes our “Bring Your Own Device (BYOD)” initiative possible. We don't ban smartphones or other devices, rather we encourage their use to aid instruction. High school students have the opportunity to participate in a number of high tech computer and technology courses. Beginning in 2013-14, CSISD unveiled Success 24/7, a online learning support portal. This site gives many students access to their teachers' lessons, supporting materials, videos and assignments. Students in these classes get to access their learning anytime and anywhere they have internet access.

**4. CSISD will ... create classroom and campus cultures that involve each family.**

Community and Parent Involvement (HB5):

Background: CSISD provides numerous opportunities for parents and community members to be involved at the district and campus levels. From our campus level VIPs (Volunteers in Public Schools) to PTOs, campus and district site based committees, public hearings, community groups and the CSISD Education Foundation, there are many ways to get involved. A variety of district level opportunities are available for parent & community involvement including the District Educational Improvement Committee (DEIC), School Health Advisory Committee (SHAC), Leadership CSISD, Planning for Growth, and Boundary Adjustment Committee. There were 4,538 approved volunteers for the 2016-17 school year, which is an increase of almost 5% from 4,335 in 2015-16.

**5. CSISD will ... commit to the responsible use of taxpayer dollars.**

Background: College Station ISD is a steward of the resources provided by the taxpayers. It is of the greatest importance for the district to be wise, fair, conservative and most of all legal in the use of public funds. It is also a goal to be efficient in the use of the funds where we can be. CSISD is audited annually by an outside accounting firm. We are also rated on a couple of different efficiency scales each year.
